

ARMOUR-TECH

Striving to manufacture the highest quality ballistic armour products to help provide safety, security, and protection for our clients.

Armour-Tech is a knowledgeable company in the field of ballistic protection with more than 50 years of experience. We operate globally with manufacturing locations in France, The Netherlands and the United States.

Armour-Tech is active in the field of personal and vehicle armour for law enforcement, military and civil applications.

We work only with prime quality sourced raw materials, lightweight and competitively priced. All our products are made under ISO 9001 quality norms and are fully traceable.

Armour-Tech products have been sold in large quantities for several decades around the world. All products insured under our civil responsibility warranty.
